

How to use new Twitter Feed (API 1.1)?

You need get **Twitter App Consumer Key**, **Twitter App Consumer Secret**, **Twitter App Access Token**, **Twitter App Access Token Secret** <https://dev.twitter.com>.

You must fill out the required fields.

js/twitter/index.php

```
23 class ezTweet {
24     /**
25      *
26      * // Your Twitter App Consumer Key
27      * private $consumer_key = '';
28      *
29      * // Your Twitter App Consumer Secret
30      * private $consumer_secret = '';
31      *
32      * // Your Twitter App Access Token
33      * private $user_token = '';
34      *
35      * // Your Twitter App Access Token Secret
36      * private $user_secret = '';
37      */
}
```

js/twitter/lib/tmhOAuth.php

```
42
43     'consumer_key' => '',
44     'consumer_secret' => '',
45     'user_token' => '',
46     'user_secret' => ''
```

To set twitter username open file **/js/twitter-options.js** and change string **'username'**.

```
1  jQuery(document).ready(function($) {  
2  
3  jQuery("#twitter-status").tweet({  
4    join_text: false,  
5    username: "envato", // Change username here  
6    modpath: './js/twitter/',  
7    avatar_size: false,  
8    count: 1,  
9    loading_text: "loading tweets...",  
10   seconds_ago_text: "about %d seconds ago",  
11   a_minutes_ago_text: "about a minute ago",  
12   minutes_ago_text: "about %d minutes ago",  
13   a_hours_ago_text: "about an hour ago",  
14   hours_ago_text: "about %d hours ago",  
15   a_day_ago_text: "about a day ago",  
16   days_ago_text: "about %d days ago",  
17   view_text: "view tweet on twitter"  
18 });  
19  
20 });|
```
